Reach Higher

CRL puts every opportunity within reach. Discover high-performance systems, engineered to satisfy stringent codes and bring aesthetic visions to life.

The **GRS TAPER-LOC® Glass Railing System** reduces installation time by up to 50%.

A new **Safety Seal** minimizes the risk of injury and renders scaffolding obsolete.

- Base shoe is 30% lighter for easier handling
- Precision torque tool prevents overtightening
- ICC-ES approved to meet codes nationwide
- Dry-glazing eliminates messy cement

WE NEVER WANT TO BE
JUST A VENDOR.
WE WANT TO BE
A PARTNER.

Erdman is your local partner in robotics and automation. We will work with you to innovate and reduce your labor requirements to provide a safer environment at your facility as well as a significant cost savings.

Erdman is unique in that we focus on all facets of window manufacturing and can help you integrate your departments and create a safer, more efficient flow through automation.

For 27 years we have concentrated completely on the North American market. We started small, service focused, nimble and innovative. We continue that focus today even as we are big enough to handle the largest of projects.

Visit www.erdmanautomation.com or call 763-389-9475 for more information.

VISIONARY THINKING.
EXCEPTIONAL DOING.

ERDMAN 

ERGO ROBOTIC SOLUTIONS

• ON THE JOB SITE

Coast to Coast Sales & Rentals

Financing Available

Tired of breaking your back?
Wondering how you're going to install
that big glass?

Need some new muscle on the job?

Give us a call!

The GM2000-12 This unit will lift a 2000 pound payload 13 feet into the air and place it using the best articulation in the business. This is the standard by which we compare the others.

The GM2000-16 with Winch Adding the optional winch and extending the boom takes this machine to the next level. The winch is useful to install curtainwall from above. It can take 2000 pounds of payload 16 feet into the air all day long.

Custom Solutions

Do you have a need for a solution?
Perhaps we can fulfill that need!
*We design and build machines to
meet your specific requirements.*

Call or Email Jerry
518-796-2179

ErgoRobotic.com
j.nudi@ergorobotic.com

The GL1200 This model is capable of working with a payload 1200 pounds at a height of 13 feet. It falls between the GM800 and the GM2000-12 in capacity, and is very heavy duty.

• IN THE SHOP

• AT THE FACTORY

The GM800 & The GM1200 Both have the functions of the GM2000-12. They lift 800 or 1200 pounds respectively to a height of 10 feet. They have a small turning radius and are relatively light weight. Perfect for the **shop, factory & job site**.

The Skyhook WPI

Our underhook solution turns a crane hook into a precision instrument capable of hauling up to a massive 3800 lbs. into the sky and delicately placing it using remote control.

For heavier loads and placement under an overhang, we are the experts.

Made in the USA

Means Serviceability
ErgoRobotic.com

The THOM 2200 & THOM 4000

Lifts 2200 or 4000 pounds to any height you need, because it rides on the forks of a telehandler of any size.

Articulates by included remote control.

The GM2000-26

This unit is currently our tallest, capable of putting 2000 pounds up 26 feet into the air with articulated accuracy. It has a power extending base for counterweight. It is ideal for setting glass in high places.

Haldenwanger, with its more than 150 years of experience, has long been a partner of some of the best glass tempering systems and spare parts for fused silica rollers in the world.

**Fused silica rollers for tempering flat glass**

Haldenwanger fused silica rollers, specially designed for transporting glass through tempering furnaces, are used in both continuous and oscillating roller hearths for many well-known furnace manufacturers and end users. Haldenwanger rollers have been used for decades successfully worldwide in the flat glass industry.

Endcaps

Haldenwanger offers mechanically fixed in Hallock endcaps, which operate at a working temperature up to 350° C.

THERE HAS NEVER BEEN A BETTER TIME THAN NOW

Recent events have forced us to look at the way we do things. Are we simply working hard or are we working smart? How can we do both?

How can we use the lessons learned during this crisis to become better, more agile, faster and more efficient?

Our FeneVision ERP for glass fabricators has provided proven solutions for our industry for nearly 25 years.

Color Takes Flight

The architect chose a lively arrangement of metal PAC-CLAD Precision Series Tiles from Petersen in a palette of four Kynar® finishes for the airport loading dock. The tiles' cupped profile enables a unique play of light and shadow that creates a sense of movement across the façade.

Minneapolis-St. Paul Airport Loading Dock Contractor: Progressive Building Systems GC: Sheehy Construction
Architect: Miller Dunwiddie Architecture Owner: Metropolitan Airports Commission Photo: bergphoto.com

Precision Series Tiles

Cupped

Colors: Patina Green, Hemlock Green,
Arcadia Green, Custom Aged Copper

When Performance matters. We deliver!

FOR DEVELOPERS

PRECISION + INGENUITY

German Engineering,
made in America

PROFITABILITY + PERFORMANCE

Competitive advantage for
better project completion

DURABILITY + SUSTAINABILITY

Quality products, projects,
people and principles

FOR GLAZING CONTRACTORS

QUALITY + TECHNOLOGY

High-performance products,
high-quality results

CONVENIENCE + CONFIDENCE

Buy direct and bring in
new business

SUPPORT + SERVICE

Reliable resources to
mitigate risk

FOR ARCHITECTS

FREEDOM + FLEXIBILITY

A systematic approach to
standard components

AESTHETICS + FUNCTION

Never compromise between
design and technical specifications

CREATIVITY + TECHNOLOGY

Bring visionary design from
concept to (virtual) reality

Long-Term Contracts, Managing Supply Chain Logistics**

**If you would like to enjoy the benefits of
American-Made Hardware, we offer our services.**

GROVE SHIMS™
RAISED RIB

**Why buy from
any other country?**

GROVE SHIMS™
MICOGRID

Grove Shims™ has the perfect shim for all your shimming needs.
With color-coded shims and solid thicknesses, the right shim can be easily applied for perfect alignment.
No guesswork or realigning. Our shims save you time and money.

* Contact us about eligible tariff fee reimbursements on the purchase of Grove's shims only.
"This ad applies to U.S. and Canada only. Offer expires 12/31/20."

Need help? Just ask! We're here to help.

978-534-5188

Visit us online to see all of our available solid 3x4 Shims.

www.groveshims.com

Free Samples are Available Upon Request.

Grove Shims™ is the leading producer of plastic structural shims. We have been in business since 1962, making shims since 1975, our family-owned business provides prompt, personalized attention to each order. In addition to our large line of in-stock shims, we will custom fabricate parts to meet your unique requirements. Unlike many competitors, our shims are solid and do not have hollow voids, so you can depend on them in crucial, load-bearing conditions.

Grove Shims™ • 17 Marguerite Ave • P.O. Box 240 • Leominster, MA 01453, USA

“

Graham was responsive, cooperative, knowledgeable and an overall great team to work with.

”

BILL OLSON
SR. PROJECT MANAGER
CLARK PACIFIC

THE GT6 WINDOW SYSTEM: Beauty for the Ages. Performance for Today.

Once again, Graham is enhancing the American education experience through innovation, aesthetics, performance and value.

Stanford University had clear criteria when researching windows for its new Escondido Village Graduate Residences.

The windows had to:

- ✓ meet California's strict energy and seismic requirements
- ✓ come from a company experienced in supplying windows to precast panel manufacturers
- ✓ be beautiful

Graham's innovative new GT6 window system, custom-designed for this project, checks all the boxes.

YOUR VISION. OUR EXPERIENCE.™

EDUCATION. CERTIFICATION. SUPPORT.

FGIA sets the industry standard for excellence in glass and fenestration.

With the combined expert resources of AAMA and IGMA, the Fenestration and Glazing Industry Alliance (FGIA) brings exponential value to its members today and into the ever-changing future.

An FGIA membership gives you access to an unparalleled network of peers, product certification from the industry leader in standards, and discounted rates on professional development.

Whether as an individual or business, joining FGIA will give you a leg up in an increasingly competitive industry by proving your knowledge, creating connections and building your brand.

Join the alliance. Learn more or become a member today at membership.FGIAonline.org.

Müller TB Technologies AG

Are you going to start producing thermally broken aluminum profiles or do you want to extend your current production drastically? As the leading manufacturer in this field, we can offer you fully automated lines as well as more simple lines for starting your production. We also manufacture other equipment for aluminum profiles, such as protection taping machines, marking devices, shear force testing devices and other useful components.

PAC-CLAD | Petersen NEW Precision Series Box Rib Panels

PAC-CLAD Precision Series architectural wall panels are available in four NEW box rib profiles. These panels offer design flexibility and easy, cost-effective installation. They can be installed either horizontally or vertically and intermixed with other Precision Series panels.

Box Rib panels come in 46 standard colors with a 30-year finish warranty (most meet LEED®, ENERGY STAR® and Cool Roof certification). For Petersen's full product line, visit our website: PAC-CLAD.com

Pulp Studio's Precision Edge®

Other Manufacturer's

PRECISION® EDGE

The exposed edges on glass handrails are an aesthetic detail you don't want to overlook. Codes only require that handrail glass be laminated, but high-quality edgework is imperative for the integrity of the design. Never feel pressured to accept a pre-polished laminate product when you have better options.

Precision Edge® complements the design by providing a high-quality, zero-tolerance finish, with perfect alignment for both tempered and annealed laminated glass.
