PROJECT NEWS

Featured in Glass Magazine Weekly and on GlassMagazine.com. With a unique, glass-wrapped exterior, the Resch Expo is a visual highlight to the Lambeau Field Stadium District in Green Bay, Wisconsin. As a central visitor's center to Green Bay, the Resch Expo project is important to the whole community, as it will bring in tourism spending and facilitate multiple shows and events throughout the year. Installers H.J. Martin and Son used innovative techniques including incorporating crown doors in the Kawneer curtain wall system by using the Kawneer Veneer Metal System.

Glass Magazine® (ISSN 0747-4261), Volume 71, Number 5, is published eight times annually in January/February, March, April, May/June, July, August, September/October and November/December by the National Glass Association,1945 Old Gallows Road, Suite 750, Vienna, VA 22182; 703/442-4890. Financing Available

Tired of breaking your back?

Wondering how you're going to install that big glass?

Need some new muscle on the job?

Give us a call!

The GM2000-12 This unit will lift a 2000 pound payload 13 feet into the air and place it using the best articulation in the business. This is the standard by which we compare the others.

The GM2000-16 with Winch Adding the optional winch and extending the boom takes this machine to the next level. The winch is useful to install curtainwall from above. It can take 2000 pounds of payload 16 feet into the air all day long.

Custom Solutions

Do you have a need for a solution?
Perhaps we can fulfill that need!
We design and build machines to meet your specific requirements.

Call or Email Jerry
518-796-2179

ErgoRobotic.com
j.nudi@ergorobotic.com

The GL1200 This model is capable of working with a payload 1200 pounds at a height of 13 feet. It falls between the GM800 and the GM2000-12 in capacity, and is very heavy duty.

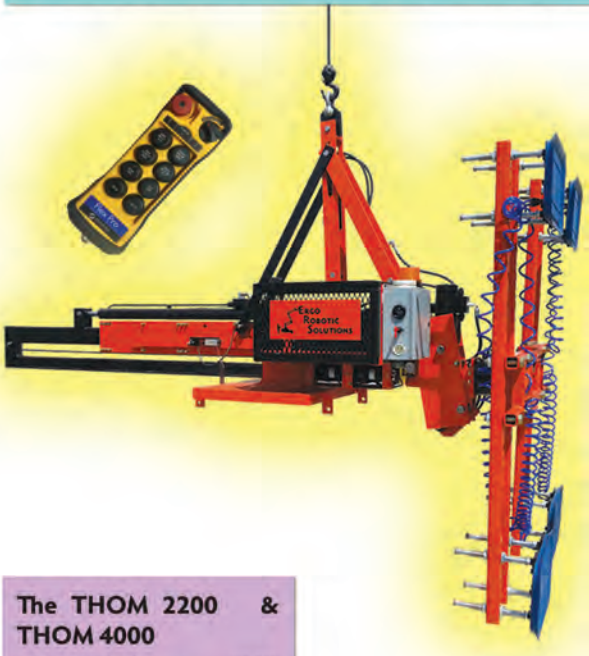

•In the Shop

•At the Factory

The GM800 & The GM1200 Both have the functions of the GM2000-12. They lift 800 or1200 pounds respectively to a height of 10 feet. They have a small turning radius and are relatively light weight. Perfect for the **shop**, **factory** & **job site**.

The Skyhook WPI

Our underhook solution turns a crane hook into a precision instrument capable of hauling up to a massive 3800 lbs. into the sky and delicately placing it using remote control.
For heavier loads and placement under an overhang, we are the experts.

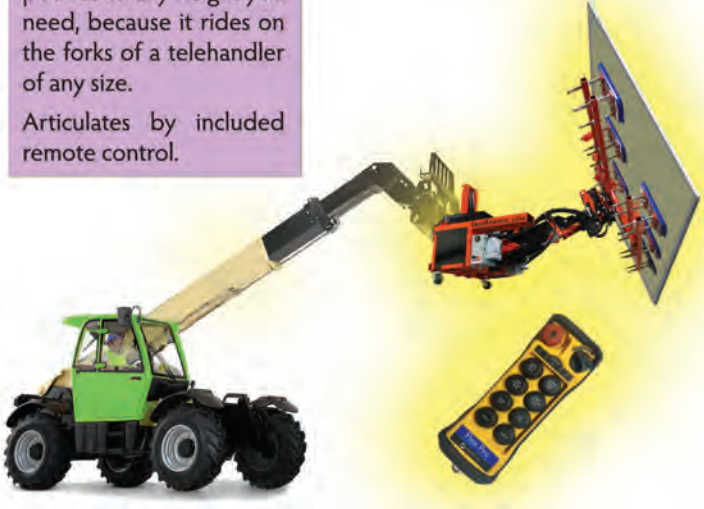

Made in the USA

Means Serviceability
ErgoRobotic.com

The THOM 2200 & THOM 4000

Lifts 2200 or 4000 pounds to any height you need, because it rides on the forks of a telehandler of any size.

Articulates by included remote control.

The GM2000-26

This unit is currently our tallest, capable of putting 2000 pounds up 26 feet into the air with articulated accuracy. It has a power extending base for counterweight. It is ideal for setting glass in high places.

COMPANY DIRECTORY

The Company Directory section of the SourceBook provides an alphabetical list of suppliers and their contact information, including phone and fax numbers, email and web addresses. To find suppliers of a particular product or service, refer to the Supplier Listings section on p. 70.

Playful Patterning

o: hortonphotoinc.com

The patterning of the Precision Series Tile hues from cream upward to mottled grays, with splashes of sea/sky blue creates a mosaic, described by the architect as inspired by rippling water and natural elements. Explore PAC-CLAD's palette and expand your creative process.

Children's Museum + Theatre of Maine, Portland, ME Installing contractor: Industrial Roofing and Siding
Architect: Bruner/Cott Architects Distributor: North Bridge Building Products GC: Zachau Construction

VIRACON NEUTRAL GRAY VNG-4022 LOW-E ARCHITECTURAL GLASS COATING:

PLEASING TO THE EYE AND ENERGY BILLS.

With its subtle neutral-gray color and exceptional solar control, VNG-4022 is designed to meet today's high-performance low-e architectural glass coating requirements. In fact, its Visible Light Transmission (VLT) of 40% and Solar Heat Gain Coefficient (SHGC) of 0.22 make it one of the higher performing low-e coatings on the market. Combined with mid-range reflectance, Viracon has once again delivered a coating sure to deliver great solar performance without compromising the beautiful aesthetics of your building's facade. Learn more at **www.viracon.com/new-products/**

The solution to every kind of handling requirement

BOTTERO

we move glass

Bottero solutions for material storage and handling can provide answers to the requirements of any glass factory that wants the connection between the material storage areas and the production lines more efficient and rapid.

Bottero systems are compact and optimize the warehouse as well as speeding up the connections, while also offering the possibility to quickly manage glass sheets, that differ in material, format and thickness.
These solutions for glass storage and handling allow customers to improve the capacity, flexibility and efficiency if their glass manufactoring plant.

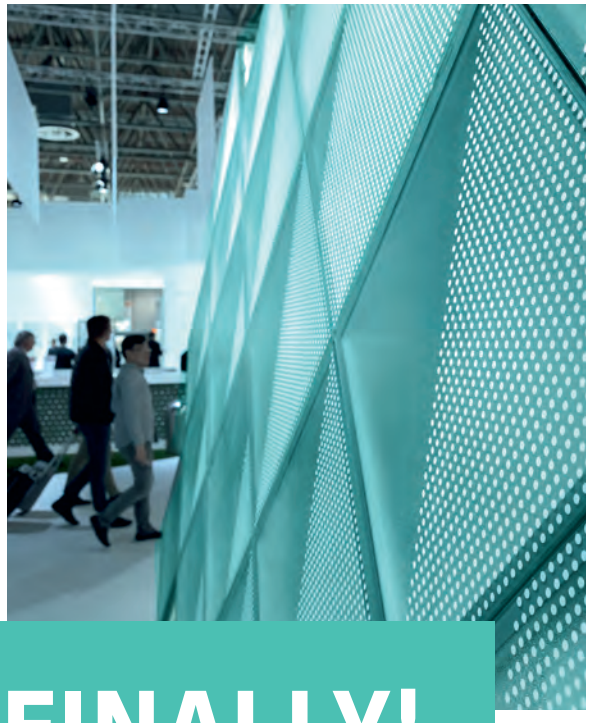

The gantry system **695CAA** is equipped with a telescopic frame system and Bottero patented system for the automatic removal of spacers.

This is an integrated solution for the handling of **LES**, **JS** and **XJS** glass sheets **up to 12m**.
It gives the largest flexibility in the warehouse management thanks to the integration of our stock systems that can have fixed positions on the ground but also automatic classifiers.

The integration with Bottero over-turning machines and the stocking system of rest pieces, complete the range.

NACC GLAZING CONTRACTORS ARE IMPROVING THE INDUSTRY

"**NACC** has made us a more **structured**, **disciplined**, and **focused** company delivering the highest **professional service** and business **client satisfaction**. The yearly certification directs us to needed **improvements** that make us be the **best in the industry**."

– Robert J. Massey, Jr. | President / CEO
Massey's Plate Glass & Aluminum, Inc. | Branford, CT

MITIGATE RISK.
BUILD BETTER PROJECTS.
STRENGTHEN THE INDUSTRY.

WWW.NACCPROGRAM.COM

NACC

North American Contractor Certification

The North American Contractor Certification Program recognizes architectural glass and metal contractors that consistently demonstrate quality and safety excellence. The program offers an ANSI-accredited third-party endorsement of companies having completed a significant and time-intensive evaluation process establishing a baseline for competency, business practices, and adherence to industry-accepted guidelines.

WHERE EXPERIENCE MEETS STATE-OF-THE-ART TECHNOLOGY

American Insulated Glass

Find the Right Solutions for Exterior & Interior Design Applications

As a certified fabricator for the world's leading glass manufacturers and a wholesale distributor, American Insulated Glass is a foremost provider of high-performing glass for building facades and luxurious interior design solutions. Backed by a team of knowledgeable industry professionals and with a proven track record of excellence, AIG will meet your glazing requirements—commercial or residential—all while exceeding service expectations. **Simplify your project experience with AIG.**

Alabama | Florida | Georgia | Maryland | Michigan | North Carolina | Tennessee

- **Certified fabricator for world's leading glass manufacturers**
- **Extensive product range for commercial, residential and interior**
- **Custom fabrication, architectural aluminum, fire-rated, hurricane impact, IGUs, shower enclosures and more**
- **Custom glass fabrication & wholesale distribution**

Gen II ArmorPlast® Aluminum-Framed Door Conversion Kit

Upgrade standard aluminum-framed storefront doors to high-security commercial entry doors with our Gen II conversion kits. Designed for 3/8", 1/2", 3/4", 1", and 1-1/4" ArmorPlast® Riot Glass and most ballistic infills.

The new Gen II security system has been engineered specifically for fast and easy installation. Just remove the glass stops and door glass, cut the conversion frames, and fasten the new security panel in place. Every order is shipped with detailed instructions and the Riot Glass product support staff is eager to help.

Our door conversion products are just part of the Gen II Storefront Security System. Dealer territories are available. Call or visit our website for full details.

See the beauty, not the glass–no substitutes.

For interiors, exteriors and heavy and safety glass applications in thicknesses up to ¾ inch, no low-iron glass consistently maintains its transparency, color fidelity, vivid beauty and distinctive blue edge like *Starphire Ultra-Clear®* glass.

ROCKWOOD®

ASSA ABLOY

Experience a safer
and more open world

BEAUTIFULLY
Protecting Your Business

Safeguard your store while emanating flawless design with the Rockwood Storefront Panic Device. Incorporating a patent-pending flat security latch, the ANSI/BHMA Grade 1 PDU8500 will ensure your doors remain locked and secure when your business is closed. With a selection of cylinder, pull, and finish choices, no concessions are needed.

MÜLLER TECHNOLOGIES

Are you going to start producing thermally insulated profiles or do you need to extend your current production drastically? As the leading manufacturer for Thermal Break Assembly Lines we can offer you fully automated lines as well as basic equipment to start your production. We also manufacture other equipment for aluminum profiles, such as protection taping machines, gasket inserting devices, shear force testing units and other useful components.

HEGLA boraident
LASER-NANOTECHNOLOGIES IN GLASS

laserbird

The upgrade for your glass products

Active bird protection

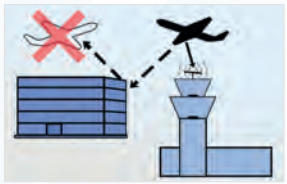

- Outside glass surface upgraded with bird-friendly and aesthetic patterns.
- The pattern is barely visible to the human eye, yet it offers effective collision protection to save birds lives.
- Functional, flexible and value added glass without setup time needed.

We look forward to your visit at

GlassBuild AMERICA

glasstec

Further applications

Greater flight safety

Better cell reception

Perfect edge decoating

Antibacterial Glass
