GLASS & TEMPERING LABELS

With Ultra Removable Adhesive

SMUDGE PROOF SURFACE

NO GLUE OR RESIDUE LEFT BEHIND

PREMIUM TOPCOAT ENSURES A CRISP IMAGE AND A SMUDGEPROOF SURFACE

Labels come in • rolls • fanfold • sheeted • individuals

WILL NOT RIP OR TEAR

SPECIALTY LABELS FOR GLASS & TEMPERING

FREE TEST RUN SAMPLE & IDEA KIT SEE BACK FOR DETAILS

For your FREE sample and idea kit simply:

- call 502-254-3345
- text 502-608-9460
- email john@BestPrintSolution.com
- go to web site www.BestPrintSolution.com

What you will receive:

- Free Test Run Samples
- Other products with our Ultra Removable Adhesive
- Ideas for Production & Efficiency
- Marketing & Branding Concepts

To view our video on how our glass/tempering labels perform scan this QR code or go to our website www.BestPrintSolution.com

Our labels with special adhesives for glass/tempering will never leave glue or residue due to *The Ultra Removable Adhesive.* Even after repeat applications and many months the label comes off cleanly with no residue left behind. In addition this product will not rip or tear and the premium topcoat chemical surface creates a clean crisp image transfer. The label surface becomes smudgeproof and scuffproof in a few seconds after it has been printed. Request a test run sample kit and see for yourself.

- **Special Adhesive Never Leaves Glue or Residue**
- **Topcoat Creates a Crisp Smudgeproof Image**
- **Poly Stock Ensures Product won't Tear or Rip**

PROJECT NEWS

Architects for a $157 million downtown redevelopment project in Central Indiana used Bendheim's TurnKey Glass Wall Cladding system for the project's anchor building. Framing the elevators of the six-story structure—a new corporate headquarters for First Internet Bank—the etched grey mirrored glass from Bendheim is designed to create a soft backdrop for some of the more dramatic features in the central space, including the grand staircase connecting the four uppermost levels. The work at First Internet Bank was completed by Architectural Glass & Metal of Indianapolis.

Glass Magazine® (ISSN 0747-4261), Volume 73, Number 4, is published eight times annually in January/February, March, April, May/June, July, August/September, October and November/December by the National Glass Association,1945 Old Gallows Road, Suite 750, Vienna, VA 22182; 703/442-4890. There is no charge for subscriptions to qualified requestors in the United States. All other subscriptions will be charged $49.95 in the U.S., and $79.95 outside the U.S. Periodicals postage paid at Vienna, Va., and other mailing offices. Ergo Robotic Solutions

•On the Job Site

Coast to Coast Sales & Rentals

Financing Available

Tired of breaking your back?

Wondering how you're going to install that big glass?

Need some new muscle on the job?

Give us a call!

The GM2000-12 This unit will lift a 2000 pound payload 13 feet into the air and place it using the best articulation in the business. This is the standard by which we compare the others.

The GM2000-16 with Winch Adding the optional winch and extending the boom takes this machine to the next level. The winch is useful to install curtainwall from above. It can take 2000 pounds of payload 16 feet into the air all day long.

Custom Solutions

Do you have a need for a solution?
Perhaps we can fulfill that need!
We design and build machines to meet your specific requirements.

Call or Email Jerry
518-796-2179

ErgoRobotic.com
j.nudi@ergorobotic.com

The GL1200 This model is capable of working with a payload 1200 pounds at a height of 13 feet. It falls between the GM800 and the GM2000-12 in capacity, and is very heavy duty.

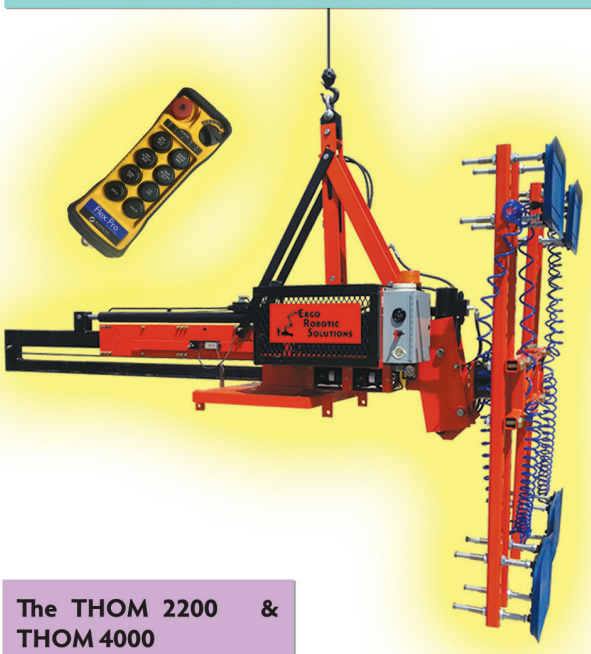

•In the Shop

•At the Factory

The GM800 & The GM1200 Both have the functions of the GM2000-12. They lift 800 or1200 pounds respectively to a height of 10 feet. They have a small turning radius and are relatively light weight. Perfect for the **shop**, **factory** & **job site**.

The Skyhook WPI

Our underhook solution turns a crane hook into a precision instrument capable of hauling up to a massive 3800 lbs. into the sky and delicately placing it using remote control.
For heavier loads and placement under an overhang, we are the experts.

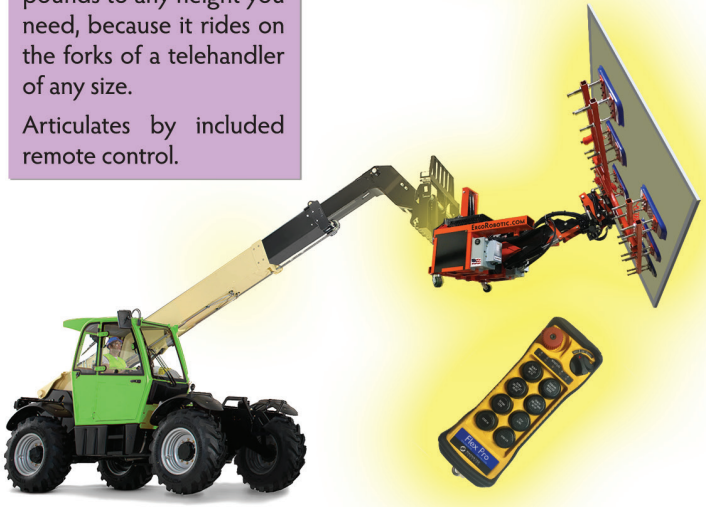

Made in the USA

Means Serviceability
ErgoRobotic.com

The THOM 2200 & THOM 4000

Lifts 2200 or 4000 pounds to any height you need, because it rides on the forks of a telehandler of any size.

Articulates by included remote control.

The GM2000-26

This unit is currently our tallest, capable of putting 2000 pounds up 26 feet into the air with articulated accuracy. It has a power extending base for counterweight. It is ideal for setting glass in high places.

COMPANY DIRECTORY

The Company Directory section of the SourceBook provides an alphabetical list of suppliers and their contact information, including phone and fax numbers, email and web addresses. To find suppliers of a particular product or service, refer to the Supplier Category Index on p. 62.

JLM WHOLESALE

The Nation's Most Trusted Security Door Hardware Wholesaler

With three distribution centers, most orders are available to ship next day! With shortened lead times, we make your job easier!

If you're looking for a leader in the security industry, we have what you need.

As security access control technology advances and standards change, JLM Wholesale has continued to stay up to date with the latest products and practices. Not only can we assist you in choosing the correct system components, but we can also provide technical guidance to meet your application requirements. Speak with our sales and technical associates for quotes, orders, or application assistance!

viprotron

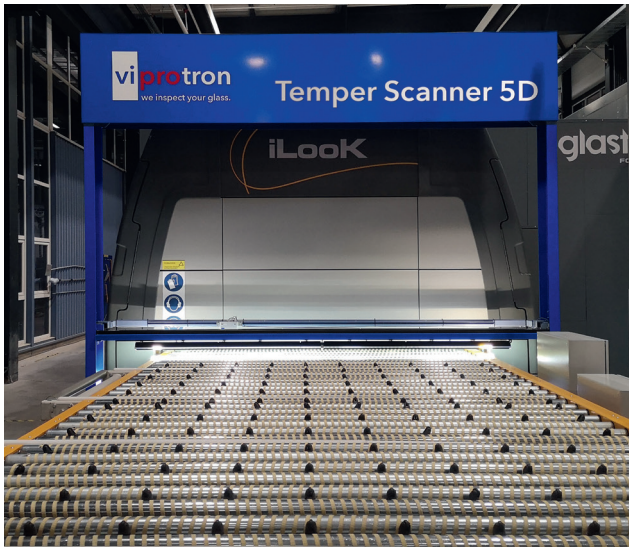

WE INSPECT YOUR GLASS

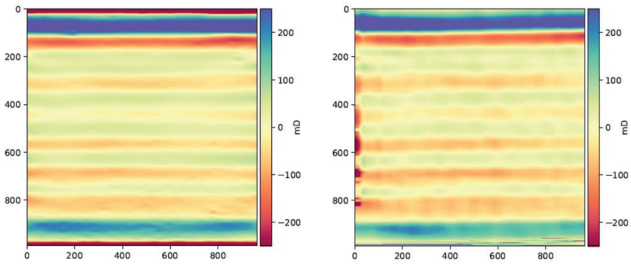

The Best in Class Inspection Solutions from Viprotron

THE NEW MILESTONE

Viprotron is proud to add a **new innovation** to its product range. Our strong focus on defect detection in insulated glass, has steadily expanded over the years to include cutting, fabrication, lamination and finally tempering.

Now we are introducing new, advanced technology for improving tempering defect detection. We will enhance our award-winning Anisotropy + Haze Scanner by adding a **Roller Wave** and **Edge Kink Scanner** to our system. All five functions (Roller Wave/ Edge Kink, Anisotropy, Haze, Brightfield & Reflection Channel for optical defects) are available in one complete package or as individual scanners.

TACTILE MEASUREMENT

VIPROTRON

NOW YOU HAVE A BETTER CHOICE

Our new, innovative and patented technology is producing excellent results when compared to actual tactile measurements of Rollerwave and Kink distortion. Our glass inspection systems provide customers with the information that they need to improve their quality and processes. You can rely on Viprotron to provide the data you need to bring your Tempering quality to the higher level that your customers demand from you.

Call us to learn more about our Temper Scanner 5D!

Gen II ArmorPlast® Aluminum-Framed Door Conversion Kit

Upgrade standard aluminum-framed storefront doors to high-security commercial entry doors with our Gen II conversion kits. Designed for 3/8", 3/4", and 1" ArmorPlast® forced entry ballistic infills.

The new Gen II security system has been engineered specifically for fast and easy installation. Just remove the glass stops and door glass, cut the conversion frames, and fasten the new security panel in place. Every order is shipped with detailed instructions and the Riot Glass product support staff is eager to help.

Our door conversion products are just part of the Gen II Storefront Security System.

Call or visit our website for full details and your new customer packet.

INTRODUCING THE VIRACON IDENTIFICATION NUMBER (VIN):

8 DIGITS OF ABSOLUTE CERTAINTY.

11465789_VIRACON_MN_IGCC(R)_IGMA(R)_2022_KM52888

A New Asset Management Tool for Your Glass. At Viracon, we never stop improving our glass or the customer experience. The Viracon Identification Number (VIN) is further proof of this commitment.

Discreetly printed on the thermal spacer, the VIN is a unique number that contains all the information you need about an insulating unit installed on a building, including glass type, composition, and finished size. With the Viracon Identification Number, the number of reasons to choose Viracon keeps growing. Learn more at ***Viracon.com/VIN.***

VIRACON®

Who's doing your glass?

Blue Star is home to the only fully-automated insulating glass line in the US.

BLUESTAR
ARCHITECTURAL GLASS

Fabricating Quality Through Automation.

Light-Catching Mosaic

Photo: alanblakely.com

Photo: ockha.dtphoto.com

Shadows and highlights move across metal tiles

As the multi-faceted Precision Series metal tiles catch the sunlight, the three colors used are transformed into many shades, adding richness to the palette of grays – Musket Gray, Slate Gray and Granite. Stone White 7.2 panels create a contrasting feature wall for the interior courtyard.

Productivity and flexibility at the highest levels

BOTTERO

we cut glass

The **EVO** cutting platform is the top of the range Bottero cutting systems, offering exclusive performance and flexibility.
The **EVO** range stands out due to its modularity and versatility, thanks to which the float cutting tables can be totally configured according to specific customer requirements: from stand-alone cutting tables intended for small productions, up to intensive high automation level production systems, fully integrated with Low-E grinding devices and marking, and loading and breakout modules.

The **EVO** range machiens are an actual automatic system to cut and "trace" the glass for subsequent factory machining. The identification of the glass from the first job (the cut) until delivery to the customer is an important challenge for the glassworking industry, in order to considerably reduce costs and to increase productivity.

Thanks to the option of equipping the machines with two additional tools besides the cutting tool, the **EVO** systems can be equipped, in addition to the low-e glass grinding, for example, for laser cutting or labelling of the processed piece.

List of installable tools:
- Low-E removal system
- Low-E and TPF removal system
- Automatic labelling system
- Permanent marking system with CO2 laser

See the beauty, not the glass–no substitutes.

For interiors, exteriors and heavy and safety glass applications in thicknesses up to ¾ inch, no low-iron glass consistently maintains its transparency, color fidelity, vivid beauty and distinctive blue edge like *Starphire Ultra-Clear®* glass.

In the field, on the go

Do you wish your dealers could use a secure mobile website to upload quotes or orders from the field? FeneVision WEB can do this and much more. It is intuitive and easy to use — a game changer for your dealers, making it easier for them to market and sell your product on the go.

- Access from the field
- Upload quotes and orders
- Clickable display images
- Includes all customer info
- Reduce order entry errors
- Configurable and flexible
- Quote maintenance and BI reports
- For manufacturers, contractors and dealers

CRL DRX™ Modular Door Rail System

The CRL DRX™ Modular Door Rail System is a revolutionary dry-glaze door rail solution specifically designed to deliver maximum flexibility and customization with minimal lead times. The patented, modular system deconstructs a standard door rail to offer greater control over when, where, and how door rails are installed.

Sparklike Laser Integrated™

The only non-destructive, automatic, IG line integrated gas measurement system in the world!

Automatic measurement of gas concentration for double and triple pane insulating glass units with coatings and lamination.

The 4th surface Low-E compatibility simplifies quality assurance of EnergyStar® units, with all measurements transferred to ERP for traceability.

NO CAPEX
LEASE TO OWN

Ensure IG quality for ~$100/day

MÜLLER TECHNOLOGIES

Are you going to start producing thermally insulated profiles or do you need to extend your current production drastically? As the leading manufacturer for Thermal Break Assembly Lines we can offer you fully automated lines as well as basic equipment to start your production. We also manufacture other equipment for aluminum profiles, such as protection taping machines, gasket inserting devices, shear force testing units and other useful components.

INNOVATE YOUR VISION

and take your next project from render to reality

Metafor™ is a structural panel with a ribbed appearance and a concealed fastening system. The architectural ribbed panel has 4-up, 4-down ribs. The texture of the panel is either smooth or stucco embossed. Metafor™ may be installed horizontally or vertically. This panel is lightweight, but it also is strong. Metafor™ panels have the Wind-Lok® interlock which guards against wind-driven rain and wind uplift. This interlock also allows the Metafor™ panels to be combined with Corra-Lok™, the Multi-Purpose™ system, and Rigid Wall II™ for the ability to create interesting patterns and breaks.

900 S. 1st Street | Austin, TX

20 YEARS OF GLASSBUILD

GlassBuild AMERICA®

THE GLASS, WINDOW & DOOR EXPO

BIGGER BUSINESS HAPPENS AT GLASSBUILD.

STAY AHEAD OF THE INDUSTRY, CODES, TRENDS, AND YOUR COMPETITION AT GLASSBUILD AMERICA.

THE TRADITION CONTINUES

Join the rest of the industry and see why more glaziers, fabricators, window & door manufacturers, dealers and suppliers reunite at GlassBuild America—more than any other conference, trade show or expo in the Western Hemisphere—for the buying/selling, education, networking, and supply chain solutions they need to grow and thrive.

THE BIGGEST GLASS & FENESTRATION EVENT OF THE YEAR
