GLASS & TEMPERING LABELS

With Ultra Removable Adhesive

- ➡ NO RESIDUE
- ➡ CRISP IMAGE
- ➡ WON'T TEAR
- ➡ SMUDGEPROOF
- ➡ WATERPROOF

**SPECIALTY LABELS FOR
GLASS & TEMPERING**

**FREE TEST RUN
SAMPLE & IDEA KIT
SEE BACK FOR
DETAILS**

For your **FREE** sample and idea kit simply:

- call 502-254-3345
- text 502-608-9460
- email john@BestPrintSolution.com
- go to web site www.BestPrintSolution.com

What you will receive:

- Free Test Run Samples
- Other products with our Ultra Removable Adhesive
- Ideas for Production & Efficiency
- Marketing & Branding Concepts

To view our video on how our glass/tempering labels perform scan this QR code or go to our website www.BestPrintSolution.com

Our labels with special adhesives for glass/tempering will never leave glue or residue due to *The Ultra Removable Adhesive*. Even after repeat applications and many months the label comes off cleanly with no residue left behind. In addition this product will not rip or tear and the premium topcoat chemical surface creates a clean crisp image transfer. The label surface is waterproof, smudgeproof and scuffproof a few seconds after it has been printed. Request a FREE test run sample kit and see for yourself.

Glass Adhesive - no glue or residue behind

Waterproof & Smudgeproof - crisp image

Poly Stock - will never rip or tear

FHC | **ALUMINUM**[®]
 STOREFRONTS & ENTRANCE SYSTEMS

The Next Level
**Energy Efficient
 Entrance Systems**

**FHC ALUMINUM[®] 300T & 500T THERMAL STRUT
 ENTRANCE DOORS & 200T STOREFRONT SYSTEM**

FHC ALUMINUM[®] 300T & 500T Thermal Strut Entrance Doors and **200T Storefront Systems** are designed to optimize energy efficiency in building entrances. These door solutions feature advanced thermal strut technology that helps control energy consumption, thereby reducing heating and cooling costs and contributing to environmental sustainability. Ideal for those looking to improve energy management in their buildings, these systems combine practicality with enhanced performance to offer a smarter, more sustainable entrance solution.

PROJECT NEWS

The new patient-centered Sentara Brock Cancer Center transforms cancer care in Hampton Roads, Virginia, by bringing together expert care teams, community organizations and holistic cancer treatment services within one location. The 253,000-square-foot facility serves as the regional hub for the Sentara Cancer Network. Accentuating the center's clean, contemporary appearance, the canopy's aluminum framing system was finished by Linetec in durable, Class I Clear Anodize, with each aluminum bay supporting two lites of Viracon's VE1-85 insulated, coated, heat-strengthened, laminated glass.

Glass Magazine® [ISSN 0747-4261], Volume 74, Number 4, is published eight times annually in January/February, March, April, May/June, July, August/September, October and November/December by the National Glass Association, 1945 Old Gallows Road, Suite 750, Vienna, VA 22182; 703/442-4890. There is no charge for subscriptions to qualified requestors in the United States. All other subscriptions will be charged \$49.95 in the U.S., and \$79.95 outside the U.S. Periodicals postage paid at Vienna, Va., and other mailing offices. JLM WHOLESALE

The Nation's Most Trusted Security Door Hardware Wholesaler

With three distribution centers, most orders are available to ship next day! With shortened lead times, we make your job easier!

If you're looking for a leader in the security industry, we have what you need.

As security access control technology advances and standards change, JLM Wholesale has continued to stay up to date with the latest products and practices. Not only can we assist you in choosing the correct system components, but we can also provide technical guidance to meet your application requirements. Speak with our sales and technical associates for quotes, orders, or application assistance!

Get R-values of R20

from an 8.3mm vacuum insulating unit.

With **VacuMax™** vacuum insulating glass (VIG) by Vitro, it's possible to achieve R-values up to R20 without needing to replace a window's framing system—and even maximize energy efficiency with hybrid VIG units constructed with *Solarban®* low-e glass.

Visit VacuMaxVIG.com to contact a Vitro sales account manager.

WOOD'S POWR-GRIP
WPG.COM
PROS EXPECT THE BEST
3 YEARS OF EXCELLENCE
WPG
EST. 1964

For 60 years, Wood's Powr-Grip® has put vacuum lifting power in your hands, providing you with a grip you can trust. The new 8" pad design is the best one yet. For information on Powr-Grip or our products, go to wpg.com.

WATCH VIDEO NOW

"I've always used Wood's, never had a failure. This new design is great with the one-handed... [attach]. Best one yet!"

CHRIS NITSCHKE,
Glazier for 30+ years

"[I've] been using your suction cups for over 30 years and my father used them before that, too. Glaziers' best friend!"

JIM CATAZANO,
Union Glazier

"I have never seen a professional glazier use anything other than a Wood's suction cup."

RAMON ORTIZ,
Glazier for 20+ years

Think higher!
with **FOURATH®4**: the premium feeder expendables series

CRACK RESISTANT TUBES

FOURATH®4 series - maximum efficiency and quality in glass production
Raise your expectations for expendables and profit from next-level benefits:

- Longer service life
- Increased glass quality due to reduced infiltration, devitrification and blistering
- Unparalleled thermal shock and crack resistance
- Complete product range from spouts, tubes, plungers and stirrers to orifice rings
- Developed and produced by RATH

CASSO SOLAR TECHNOLOGIES
Providing custom solutions for over 60 years

Latest Technology in Glass Processing

Utilizing a combination of Infrared and Convection Heating for Fast & Efficient production of ALL Glass Types

- Coated & Uncoated
- Electrochromic
- Photochromic

Vacuum Bag Laminating Systems
Bring your low volume speciality laminated glass production in-house.

- Combination IR & Convection for Fast Cycle Times
- Fully Automated
- EVA, PVB, SGP, TPU

Continuous Laminating Systems

- High volume
- Fully Automated
- Combination IR & Convection
- Coated & Uncoated Glass

Rolling Hearth & Ceramic Ink Firing Furnaces

- Ceramic Ink Firing
- Annealing
- Chemical Vapor Deposition Processes
- And More!

Ink Drying Systems

- Roll coat
- Screen Print
- Spray
- Digital Print

Single & Multi-Station Glass Bending & Casting

- Ballistic, Automotive, Architectural
- Chamber size up to 120" x 180" x 36"
- Multiple zones

Scan to Learn More!

Call 845-354-2010 or visit www.cassosolartechnologies.com

Laminated SENTRYGLAS Trim Tables

Trim interlayer faster and easier.

- Sizes up to 96" X 120"
- Optional lift arms
- Walk in sections
- Automatic guides
- Multiple voltages available

AUTOMATIC LOADING FREEFALL TABLE

AN ORIGINAL INNOVATION CREATED
BY BROMER INC., OUR AUTOMATIC
FREE-FALL LOADING TABLES ARE THE
MOST EFFICIENT ON THE MARKET.
THE OPERATION TIME IS FAST AND
THE PURCHASE AND OPERATION
COSTS ARE LOW. THESE ARE HIGHLY
RELIABLE SYSTEMS BUILT TO LAST.
ADAPTABLE TO ALL HORIZONTAL
CUTTING LINES ON THE MARKET.

- HEAVY-DUTY STEEL CONSTRUCTION
- BLACK SYNTHETIC FELT
- GLASS THICKNESS 2.5 TO 6 MM
- HIGH CAPACITY BLOWER SHIP
- VARIABLE TRANSFER SPEED FROM 0 TO 120 FEET / MIN
- CONTROL BOARD WITH USER FRIENDLY COLOR TOUCH SCREEN KEY SELECTOR
- UL CERTIFIED

Delivering Service and Innovation

Aria Vetri provides high-quality glazing hardware materials to the professional glass industry.

We are focused on service and do enable our customers to stand out in their markets. Trusted partnership is built on exceptional service and rapid delivery. Our portfolio includes *shower hardware, commercial door rails, patch hardware and glazing supplies.*

Aria Vetri is also the exclusive distributor of CASMA Italy in North America. Through that partnership, we provide European patch fittings, hydraulic hinges and closers, sliding door systems, and other related commercial hardware to our customers.

A CELEBRATION OF ARTISTIC INGENUITY

St. Petersburg, Florida is renowned for its vibrant art scene, featuring over 600 street murals. GGI contributed to this artistic landscape by fabricating 32 custom glass panels for a new public art display for the SunRunner Bus Rapid Transit system. As part of a \$44 million project to enhance the city, nationally recognized artist Catherine Woods was commissioned to design 16 art installments to be placed in bus shelters across a 10-mile corridor, capturing the essence of the surrounding neighborhoods. **Having worked with GGI on past projects, Woods knew GGI could bring her visions to life with Alice® Direct to Glass Printing.**

UNCONVENTIONAL THINKING THAT REDEFINES CONVENTIONAL GLASS.

Viracon PLUS™ Smart Glass powered by Halio® is nothing less than the most state-of-the-art smart dynamic glass on the market today. Faster, more uniform tinting. Cloud-based manual or automated control. And beautiful neutral gray aesthetics throughout the tinting phases. This revolutionary smart glass reduces heat gain and glare and helps to fight climate change by lowering carbon emissions. And with a 30% or greater Incentive Tax Credit for smart glass, the time is now for the glass of the future. Better for buildings. Better for occupants. Better for the planet. Viracon Plus Smart Glass powered by Halio doesn't just change tints, it changes everything. **Get your project started at [Viracon.com](https://viracon.com).**

Light-Catching Mosaic

Shadows and highlights move across metal tiles

As the multi-faceted Precision Series metal tiles catch the sunlight, the three colors used are transformed into many shades, adding richness to the palette of grays – Musket Gray, Slate Gray and Granite. Stone White 7.2 panels create a contrasting feature wall for the interior courtyard.

See the beauty, not the glass—no substitutes.

For interiors, exteriors and heavy and safety glass applications in thicknesses up to ¾ inch, no low-iron glass consistently maintains its transparency, color fidelity, vivid beauty and distinctive blue edge like *Starphire Ultra-Clear®* glass.

Stratford, CT 06615

**MR. SHOWER DOOR will build and ship your plated
over real brass enclosures on time and budget.**

We CAD design your shop drawings cut proof and inspect each assembled unit before packing into specialized shipping crates for domestic or overseas.

We even do grid overlay products in matte black or any plated finish your design team requests.

**CONTACT US TO GET YOUR
PROJECT STARTED TODAY**

WE MAKE SOURCING SPECIALTY GLASS EASY.

Discover a seamless solution to sourcing specialty glass. At GGI, we eliminate the hassle of finding antique mirror, back-painted, fire-rated, satin etched, textured pattern and other specialty glass products. We streamline the process, making ordering mixed loads fast and effortless. GGI is your key to saving both time and money. Get what you need, when you need it.

Scan QR code to view our complete range of decorative and specialty glass.

FAST-TRACK

Triple Pane IG Production: Unmatched Speed & Quality

ATLAS® 2.0

*Automated Tri-Lite Assembly System.
Produces triple pane IGUs in 20 second cycle times.*

IG Assembly System 2.0®

Automatically aligns and assembles glass lites. Utilizes state of the art actuation with up-to-date controls for high quality production.

Included with the ATLAS® 2.0 or for individual purchase.

Productivity and flexibility at the highest levels

we cut glass

The **EVO** cutting platform is the top of the range Bottero cutting systems, offering exclusive performance and flexibility.

The **EVO** range stands out due to its modularity and versatility, thanks to which the float cutting tables can be totally configured according to specific customer requirements: from stand-alone cutting tables intended for small productions, up to intensive high automation level production systems, fully integrated with Low-E grinding devices and marking, and loading and breakout modules.

The **EVO** range machines are an actual automatic system to cut and “trace” the glass for subsequent factory machining. The identification of the glass from the first job (the cut) until delivery to the customer is an important challenge for the glassworking industry, in order to considerably reduce costs and to increase productivity.

Thanks to the option of equipping the machines with two additional tools besides the cutting tool, the **EVO** systems can be equipped, in addition to the low-e glass grinding, for example, for laser cutting or labelling of the processed piece.

List of installable tools:

- Low-E removal system
- Low-E and TPF removal system
- Automatic labelling system
- Permanent marking system with CO2 laser

Bovone North America

Bovone North America, a subsidiary established in 2020, specializes in distributing Bovone's glass processing solutions, all proudly Made in Italy. These include straight-line edgers and beveling machines for edge processing, Bovone Robotics System®, horizontal and vertical washing machines, laminating ovens, complete laminating lines, silvering lines, and BNA is also the sole distributor of Bovone Diamond Tools for glass and stone grinding wheels and tools.

TEMPER SCANNER 5D - THE COMPLETE SOLUTION

Viprotron is proud to add a **new innovation** to its product range. Our strong focus on defect detection in insulated glass, has steadily expanded over the years to include cutting, fabrication, lamination and finally tempering.

Now we are introducing new, advanced technology for improving tempering distortion detection. We will enhance our award-winning Anisotropy + Haze Scanner by adding a **Roller Wave** and **Edge Kink Scanner** to our system. All five functions (Roller Wave/Edge Kink, Anisotropy, Haze, Brightfield & Reflection Channel for optical defects) are available in one complete solution or as individual scanners.

Our new, innovative and patented technology is producing excellent results when compared to actual tactile measurements of Rollerwave and Kink distortion in Milli Diopters (mD).

TACTILE MEASUREMENT

VIPROTRON

ACCURATE DATA = REAL INTELLIGENCE

Our glass inspection systems provide customers with the information that they need to improve their quality and processes. You can rely on Viprotron to provide the data you need to bring your glass quality to the higher level that your customers demand from you.

UNITIZED CURTAIN WALL SYSTEMS

ELEMENTFAÇADE 7

ElementFaçade 7 meets all contemporary architectural needs by offering an aesthetic, fast-to-produce and easy-to-install façade solution. The off-the-shelf unitised aluminium system combines intelligent design and reliable performance.

MASTERWALL

The window wall that reaches for the sky

ABOUT US

MPLEED/MPLED USA LLC is specialized in curtain wall and window wall systems.

Our promise: From design to installation, we oversee your project every step of the way, while offering a wide range of products to ensure perfect results.

Our offer: Aluminum systems made by Reynaers aluminum, shipped to our USA factory, delivered to your job site and ready for installation within just 30 days. Having a production team and factory of our own gives us a full control over the tight manufacturing deadlines. Our very own engineering department will conduct field measurements and provide manufacturers shop drawings for review and approval prior to fabrication.

Our commitment: Quality and efficiency.

ATTENTION JOB SEEKERS

Use the Glass Magazine Employment Center to Help Find Your Next Job in the Architectural Glass Industry

The screenshot shows the Glass Magazine Employment Center website. At the top, there are navigation tabs for 'Job Seeker' and 'Employer'. Below this is a menu with 'OVERVIEW', 'JOBS', 'YOUR PROFILE', and 'RESOURCES'. On the right, there are links for 'Help' and 'Beth'. The main header features a large image of people in a modern office with a glass facade, overlaid with the text 'Glass Magazine Employment Center'. Below the header is a search bar with 'Keywords' and 'Location' fields, and a 'Search All Locations' button. An 'Advanced Search' link is also visible. The 'Glass Magazine Employment Center Account Benefits' section includes three icons: 'Post Your Resume', 'Apply For Jobs', and 'Get Job Alerts', followed by a 'Get Started!' button. The 'Job Listings' section shows '9 Job Listings' and '5 Employers Hiring'. A 'Newest' filter is present. Four job listings are displayed, each with a 'NEW!' badge: 'Inside Sales Manager' at Southern Wholesale Glass in Americus, Georgia; 'Maintenance Manager' at Southern Wholesale Glass in Americus, Georgia; 'Outside Sales Representative' at Southern Wholesale Glass in Americus, Georgia; and 'Preconstruction Business Development Manager' at BCIndustries, Inc. in Tampa, Florida. A 'See More Listings' button is at the bottom of the listings section. The footer of the screenshot shows 'Glass Magazine Employment Center Resources'.

WHY SHOULD YOU AUTOMATE?

ERDMAN® HIGH SPEED IG LINE

Automation is Not Just About Cycle Time and Output. Did You Know Automating IG, Glazing and Screen Production Does These Things?

- Reduces the revolving door of employees that often are your largest risk of quality, performance and safety. For example: work loss incidents and training time consumption.
 - Reduces some of the most dangerous work stations that can cause injury and trap skilled workers.
 - Creates opportunities for your trusted long-term employees to grow fostering loyalty and increased performance.
 - Reduces the need for that needle in the haystack employee that can lay the spacer perfectly, put down the perfect bead of silicone and make a screen square with no screen mesh sag.
 - Reduces or eliminates extra labor in downstream areas like final assembly and glazing bead assembly .
 - Make a better and cleaner looking window that just may make the difference in gaining or losing a customer.
- Visit www.erdmanautomation.com or call 763-389-9475 for more information.

VISIONARY THINKING. EXCEPTIONAL DOING.

ERDMAN
