100% bar code read rate labels

With Ultra Removable Adhesive

About our direct thermal poly production labels:

- ➡ super crisp image - 100% bar code read rate
- ➡ smudgeproof and waterproof - never smears
- ➡ ultra removable adhesive - no residue behind
- ➡ will not ever rip or tear - strong poly facestock
- ➡ no ribbon or inks required - no hassle & mess
- ➡ QR codes, watermarks, logos - 1 to full color
- ➡ 1 or 2 liner backslits for production efficiency

**SPECIALTY LABELS FOR
GLASS & TEMPERING**

**ULTRA REMOVABLE
ADHESIVE NEVER
LEAVES GLUE OR
RESIDUE BEHIND**

**FREE TEST RUN
SAMPLE & IDEA KIT
SEE BACK FOR
DETAILS**

For your **FREE** sample and idea kit simply:

- call 502-254-3345
- text 502-608-9460
- email john@BestPrintSolution.com
- go to web site www.BestPrintSolution.com

**MADE FOR
GLASS**

What you will receive:

- Free Test Run Samples
- Other label products with our Ultra Removable Adhesive
- Ideas for Production & Efficiency
- Marketing & Branding Concepts

To view our video on how our glass/tempering labels perform scan this QR code or go to our website www.BestPrintSolution.com

Our labels with special adhesives for glass/tempering will never leave glue or residue due to **The Ultra Removable Adhesive**. Even after repeat applications and many months the label comes off cleanly with no residue left behind. In addition this product will not rip or tear and the premium topcoat chemical surface creates a clean crisp image transfer. The label surface is waterproof, smudgeproof and scuffproof a few seconds after it has been printed. Request a FREE test run sample kit and see for yourself.

Our premium production labels are made with an adhesive made specifically for glass so no glue or residue is ever left behind. And our crisp image is made without the use of any ribbons or inks. Ask for a free test roll and experience the best label in the glass fabrication industry.

**ULTRA REMOVABLE
ADHESIVE NEVER
LEAVES GLUE OR
RESIDUE BEHIND**

PROJECT SHOWCASE

The new luxury residential building on Billionaire's Row in New York City, 7 West 57th Street, features a customized glass cladding system. The west-facing façade showcases Lamberts channel glass, provided by Bendheim. The channel glass installed in this project is light weight but withstands high wind loads, adds texture and is ideal for backlighting. To achieve the desired aesthetic and functionality, Bendheim worked closely with Hill West Architects, utilizing its extensive design toolbox to create a customized channel glass clip system.

Glass Magazine® (ISSN 0747-4261), Volume 75, Number 4, is published eight times annually in January/February, March, April, May/June, July/August, September, October and November/December by the National Glass Association, 344 Maple Ave. West, Unit 272, Vienna, VA 22180; 703/442-4890. WHY SHOULD YOU AUTOMATE?

Automation is Not Just About Cycle Time and Output. Did You Know Automating IG, Glazing and Screen Production Does These Things?

- Reduces the revolving door of employees that often are your largest risk of quality, performance and safety. For example: work loss incidents and training time consumption.
 - Reduces some of the most dangerous work stations that can cause injury and trap skilled workers.
 - Creates opportunities for your trusted long-term employees to grow fostering loyalty and increased performance.
 - Reduces the need for that needle in the haystack employee that can lay the spacer perfectly, put down the perfect bead of silicone and make a screen square with no screen mesh sag.
 - Reduces or eliminates extra labor in downstream areas like final assembly and glazing bead assembly .
 - Make a better and cleaner looking window that just may make the difference in gaining or losing a customer.
- Visit www.erdmanautomation.com or call 763-389-9475 for more information.

VISIONARY THINKING. EXCEPTIONAL DOING.

A New Era of Shower Hinges is Here

The groundbreaking **Zero Hinge** embodies true innovation. Its superior strength can secure glass doors over **50% heavier and 15% wider** than standard hinges. In addition, the Zero Hinge can be completely installed from outside the shower enclosure to simplify and expedite installation.

- Max door weight of 167 lb and width of 45"
- Unique 1/4" rise and fall action
- Concealed screws create a modern look
- Self-centering within 60° of closing
- Floor mounting option (acting as a pivot hinge)
- **Now backed by a 10-year warranty on all Shower Door Hardware**

Polished chrome, brushed nickel, satin brass, brushed bronze, and matte black finishes

Scan to see new
innovative installation!

WOOD'S POWR-GRIP
WPG.COM

**PROS
EXPECT
THE BEST**

For over 60 years, Wood's Powr-Grip has delivered unmatched quality and glass lifting power, giving you a grip you can trust. Learn more about Powr-Grip and our products at wpg.com.

WATCH VIDEO NOW

"I've used WPG since I started as a glazier 24 years ago. I always recommend Wood's to the new generation of glaziers."

ERNESTO PADILLA
Glazier - Dallas, Texas

"WPG cups, while older, never give up on us and have been the best and only cups that I will trust to lift heavy pieces... WPG has never let me down I would never choose another cup to do such a job."

GAVIN FISHEL
Glazier - Glen Rock, Pennsylvania

"Wood's truly offers the best suction cups on the market!"

KEVIN SANTOS
Glazier - Tampa, Florida

Share your project photos of Powr-Grip products in use @woodspowrgrip

THE GLASS FURNACE ALLIANCE
RATH REFRASTECHNIK
YOUR COMPETENCE IN REFRACTORIES

Think higher!
Expect a future-proof refractory partnership

Regenerator
Melting end
Working end
Forehearth
Feeder
Hot gas filtration

We are your premium partner for glass production, from flat glass to container glass
Benefit from crystal-clear glass quality with:
 > **Checker bricks** for optimal heat storage in regenerators
 > **Bottom blocks** for long-lasting and cost-effective insulation in melting ends

“Raise Your Glass With Excellence.”

With a passion and dedication for service, the women of Glassfab help shape excellence — building trust, fostering collaboration, and driving lasting success.

During Women’s History Month, we proudly recognize the talented women of Glassfab and the essential roles they play in our success. Their leadership and expertise support every aspect of our operations, from managing office functions and supplier relationships to delivering exceptional customer service and precise estimates. Each contributes to keeping projects on track and ensuring we meet the highest standards. Their professionalism and attention to detail strengthen relationships with our customers and vendors. Within our team, they foster collaboration, positivity, and continuous improvement. We are grateful for their dedication and the lasting impact they make every day.

ORNILUX® MIKADO

BIRD-FRIENDLY
UV COATING
ON GLASS

TESTED AND APPROVED FOR DIFFERENT APPLICATIONS

- More than 1,000 certified variations possible for IG-units
- Certified with sunbelt® solar control coatings and 3rd party low-e coatings
- Available with thickness from 5/32 to 1/2 in.
- Stock Sheet Dimensions
from 3.21 x 2.25m (126 x 88 in.)
to 3.21 x 9.00m (126 x 354 in.)
- Available on clear, mid-iron or low-iron substrate
- Optional heat treatable (oHT), can be used annealed – no heat treatment required (except thermal required of IGU unit – thermal stress)
- Random design – optimization like clear glass – no consideration of alignment or orientation during fabrication – lower costs due to less cutting waste
- Certified and approved by ABC (American Bird Conservancy)

BECOME A CERTIFIED FABRICATOR!

Productivity and flexibility at the highest levels

we **cut** glass

Bottero has always been committed to promoting the development and popularity of laminated glass by constantly researching and developing new technological solutions that are able to improve production, as well as increase its possible range of applications.

For over 25 years, Bottero has been and still is the only company in the world with the know-how and organisation required to manufacture both machines and lines for the production of laminated glass, and can therefore provide its customers with a unique experience, which turns into excellent processing results and extremely reliable solutions.

Bottero cutting lines for laminated glass are the final answer to the growing demand for productivity and flexibility that the market requires.

548LAM represents the point of reference in the cutting systems of laminated glass and it is available in a stand-alone version and a dual-line combined with a monolithic cutting table (**BKM**, **BCS** and **EVO** ranges).

The **548LAM** contains various levels of automatization that is able to manage fully automatic, complex optimizations with **X**, **Y**, **Z** and **W** cuts on float glass and low-E up to **12 + 12mm** of thickness.

**Not listed this year? Need to change
your company information?**

Download a listing form at www.GlassMagazine.com/glass-magazine-sourcebook and email it to toconnell@glass.org.
We'll update our database for next year's print edition.

Don't just weatherproof.

Futureproof.

With the lowest U-factors available, window systems with Azon will meet thermal regulations for years to come.

CATEGORY INDEX

Use this cross-referenced index of product categories to find where companies that supply a particular product are listed in the Supplier Listings section. For contact information for these companies, refer to the Company Directory on page 8.

INTRODUCING THE VIRACON IDENTIFICATION NUMBER (VIN):

8 DIGITS OF ABSOLUTE CERTAINTY.

T465789_VIRACON_MN_IGCC(R)_IGMA(R)_2022_KM52888

A New Asset Management Tool for Your Glass. At Viracon, we never stop improving our glass or the customer experience. The Viracon Identification Number (VIN) is further proof of this commitment.

Discreetly printed on the thermal spacer, the VIN is a unique number that contains all the information you need about an insulating unit installed on a building, including glass type, composition, and finished size. With the Viracon Identification Number, the number of reasons to choose Viracon keeps growing. Learn more at Viracon.com/VIN.

THE PREMIUM BRAND IN RAILING SYSTEMS

WE DESIGN RAILING SYSTEMS

Q-railing is a trusted source for glass & metal railings, guardrails, handrails, balconies, and more. Our products celebrate panoramic views, modern design, safety, and innovation.

LED LINEAR LIGHT SOLUTIONS

Handrails That Highlight, Cap Rails That Captivate

- Compatible with base shoe, base clamp, adapter and post & rail systems; ideal for a range of applications.
- Available in round & rectangular profiles to complement a variety of design aesthetics.
- Features warm and daylight LED strips in interior & exterior grades.
- Includes plug-in splices and UL compliant transformers for easy connection to building electrical systems.

TRANSFORMING SPACES WITH ARTISTIC GLASS SOLUTIONS

GGI's expertise in direct-to-glass printing brought artist Julie Richey's project design to life in this distinctive and functional custom shower enclosure. Utilizing **Alice® GEN 3.0 Direct-to-Glass Printing**, the design perfectly balances privacy and visual impact through a precisely calibrated opacity level. The Aspen Burn artwork was digitally applied to 10mm Diamant® low-iron glass and accented with polished stainless steel hardware. The interplay of winter snow and charred trees forms a bold, abstract composition, transforming the space into a work of art. This project highlights the depth of GGI's craftsmanship, where innovation and artistry converge seamlessly. **Built on Legacy. Driven by Innovation.**

THE NATION'S #1

SECURITY DOOR HARDWARE WHOLESALER

jLM A Division of
LOCKMASTERS®
WHOLESALE

 **ORCHARD**
LOCK DISTRIBUTORS

We're growing to better serve you! After partnering with Lockmasters, Inc. and Orchard Lock Distributors, we now have 6 distribution centers, strategically located throughout the country, including our brand new facility in Nevada!

With shorter lead times, thousands of products, skilled technicians that are available to provide you with excellent customer service, we are the nation's #1 source of commercial and architectural security door hardware.

ERGO ROBOTIC SOLUTIONS

Elevating Glaziers Everywhere

We design, build, sell and,
rent outstanding glass
installation equipment.

GM 5000-12

NEW

The GM 5000-12 will take a load of 5000 lbs. 12' high and place it with articulated precision.

Also available in models: GM 800, GM1200, GM2000, GM 3000 & GM4000

NEW

PLUMBLINE-8000

The PLUMBLINE-8000 will lift glass up to 8000 lbs. and holds it's balanced position from horizontal to vertical

SKYHOOK WPI

Lifts big glass up to 3500 lbs. Place by remote control with horizontal to vertical tilt, up & down control and rotation

NEW
WPI-G

Lifts up to 6000 lbs. with adjustable cantilever.

CUSTOM LONG CANTILEVER WPI

Custom WPIs are also available for even heavier glass. The extended cantilever allows placement of curtain wall sections and big windows under an overhang.

Ultra-thin 0.5 mm center glass in unique TPS® IG units

Change your glass game with the latest advancements in TPS® technology.

Process ultra-thin 0.5 mm center glass for triple or quadruple TPS® IG units. And get 20% greater insulation with the same IG unit thickness and weight.

Put our patented process and special line configuration to work for you.

Discover Glaston thin glass technology.

When study break needs a dance break.
Price Gilbert Memorial Library

Create breakthrough moments.

The right facade illuminates a spirit of curiosity and exploration. At YKK AP, we offer more than just innovative facade solutions. We build valuable partnerships with architects and contractors, helping them transform spaces from vision to reality and ordinary moments into something truly memorable.

We Build a Better Society Through Architectural Products.

Thirsty
THURSDAY
QUENCH YOUR THIRST FOR **KNOWLEDGE**

NGA
NATIONAL GLASS ASSOCIATION with GANA

NGA's Thirsty Thursday webinars are a monthly series featuring insights on business, technical topics, training resources and residential trends. Check out the on-demand versions at www.glass.org/webinars.

Active shooter events
are becoming more
frequent.

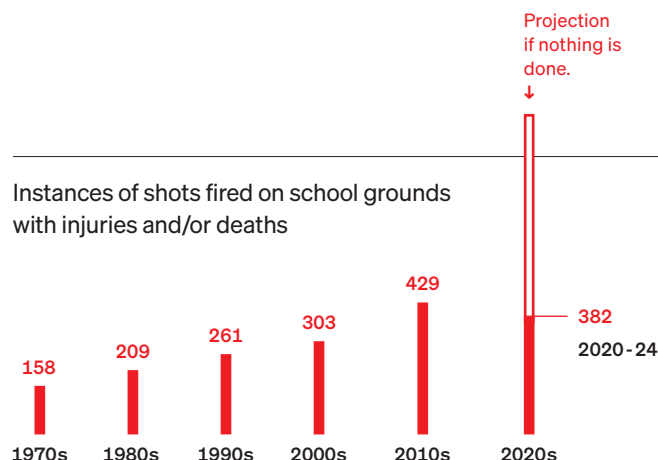

Windows and doors
respond first.

Security glazing resistant to forced entry can be used to slow down an active shooter, allowing more time for schools to enact emergency plans and for first responders to arrive. The NGA is prioritizing making schools safer with forced-entry-resistant, security, and ballistic windows and doors. Join us.

Learn more and get involved.

Instances of shots fired on school grounds
with injuries and/or deaths
